Brighton A Long and interesting holiday

On the first day we went by bus and ferry to our Hostfamilie in Brighton. Our family was so great.

So, we start with the next day. We were in Brighton and wanted to see sights and people. We made a Brighton rally and the people in Brighton couldn't help us. This was horrible. But the day in Brighton was good. I must say I miss Brighton. The third day we went to London

by bus. In London we took the tube. We went to Oxford Street for some shopping.

Later we met at St.Paul's. We crossed the Millenium Bridge and went to the Modern Gallerie.

There we went to the 10th floor by Elevator. We had a good look over London. On day 4 we walked to Birling gap and had a teatime ceremony in Hastings afterwards. We went to Mc Donalds because Burger King is closed. On the beach at Brighton it was wonderful. We could take good

Photos (good Photos for Iphone 5S). On day 5 we went on a two hours coastal walk and found interesting photo motives. On our way back we wanted to eat someone ice cream. The man behind the counter was disgusting, ugly and had greasy hair. We've found a burger shop there are so nice and delicious. So this was the last day in our families. It was wonderful. I miss you Mrs. Gill Martin!

On day 6 we were in London again, we went to Camden Market. In the evening we went back to Bremen by bus and ferry. The holidays was really great.

The Host Families

On my first day I came into a host family which was not so good but in the evening the host mother got a call. She was told that we had to go to another family because their four rooms were used by other guests. They had to change some people. So we went to another family on the next day. But then I stayed in a really friendly host family. It was better than the first family because there it was so nice and hospitable. The food and the lunchpack were much better .It was delicious.
